

CPG-90
SECTOR 40
D/I -1.2
E II N1

This is a black and white photograph of a geological or archaeological site. The ground is sandy and uneven. In the center, there are several small, light-colored, irregularly shaped objects, possibly rocks or fossils. To the left of these objects is a larger, smooth, rounded rock. In the lower-left corner, there is a small, dark rectangular label with white text. Below the label, a horizontal scale bar with alternating black and white segments is visible. The background is a vast, flat, sandy area.
